SPECIFICATIONS

This is a sidewalk and driveway apron restoration contract (along with associated handicap ramps). It is intended to supplement work performed by regular maintenance forces of the Department of Public Works. Types of work under this contract include concrete removal and the replacement of sidewalks, driveway aprons, handicapped ramps, and on occasion concrete curbs.

CREW REQUIREMENTS

Contractor shall supply a minimum of two (2) complete crews for the duration of this contract. A complete “crew” shall include all qualified persons and equipment required to remove and dispose of existing concrete, form, pour and finish new concrete. A crew that performs only one task (i.e. demolition, forming or finishing) does not constitute a complete crew.

CONTRACT TIME

The contract will be for a period of two (2) years. Contract prices are firm for the entire two (2) year contract period.

The quantities in the bid form are approximate for the comparison of bids only. The parish reserves the right to delete or add jobs as needed for the duration of the contract.

The definition of "job" shall be the work described on any one issued work order. Each "job" shall be estimated as to time required to complete the amount of work proposed. Many "job" sizes will be relatively small.

Estimated time for completion shall be in accordance to size of "job", but all work orders shall be complete within 30 days from the date contractor is issued the work order.

All of the work within the limits of each job shall be shown to the contractor by a representative of the Department of Public Works prior to commencing work. Appropriate sketches and/or drawings may be furnished to the contractor with each work order. Work sites may be scattered for an individual work order. Contractor shall begin the work within 10 days after issuance of a work order. All sidewalk and driveway layouts for each work order shall be incidental to the bid item with no additional payment.

LIQUIDATED DAMAGES AND PAYMENT

For each calendar day that an individual work order remains uncompleted 30 days from the date contractor is issued a work order, the sum of 30.0 percent of the estimated cost of the work order will be deducted from the next submitted invoice, not as a penalty but as liquidated damages. Time extensions will be granted for excusable delays that are not the contractor's fault and for inclement weather days. Excusable delays must be documented in writing by the contractor and are subject to approval by the director of engineering. Inclement weather days shall be defined as any day on which construction operations were unable to proceed for at least five (5) continuous hours of the day or 65% of the regular working hours, whichever is greater. Should contractor prepare to begin work on any given day in which inclement weather, or the conditions resulting from inclement weather, prevent work from beginning at the usual starting time, and the crew is dismissed as a result thereof, the day will be declared an inclement weather day, whether or not conditions change during the day, resulting in the rest of the day becoming suitable for work. Inclement weather days must be documented by the contractor and are subject to approval by the director of engineering.

Each work order will be issued in writing with appropriate drawings if applicable, or other attachments and will designate a job number. All correspondence pertaining to the work should reference the job number. Payment will be made upon receipt of detailed and itemized invoices and verification by parish inspectors regarding quantity and quality of work performed.

If contractor leaves the job incomplete for over a 30 day period, the Engineering Department has the right to find the contractor in default and go to the next lowest bidder to complete the contract. In the meantime, the Parish may utilize another Parish maintenance contract to complete the outstanding work orders. However, if the contractor has a valid reason to hold off on a job, he has to obtain written permission from the Director of Engineering for the stipulated

delay. Also the owner has the right to put a hold on a job at the beginning or when a job is in progress without designating a reason. If the job is to be discontinued, the contractor will be compensated only for the items of work actually done and not for any down time.

If any sworn statements of claims are filed during the term of this contract, the Parish shall withhold the next accruing payment and shall have the authority to satisfy the claim and deduct the amount from payments due.

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the advertised bid. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council as additional insureds regarding negligence by the contractor for the Commercial General Liability and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.
